

COMMERCIAL FIT-OUT PROJECT MANAGEMENT

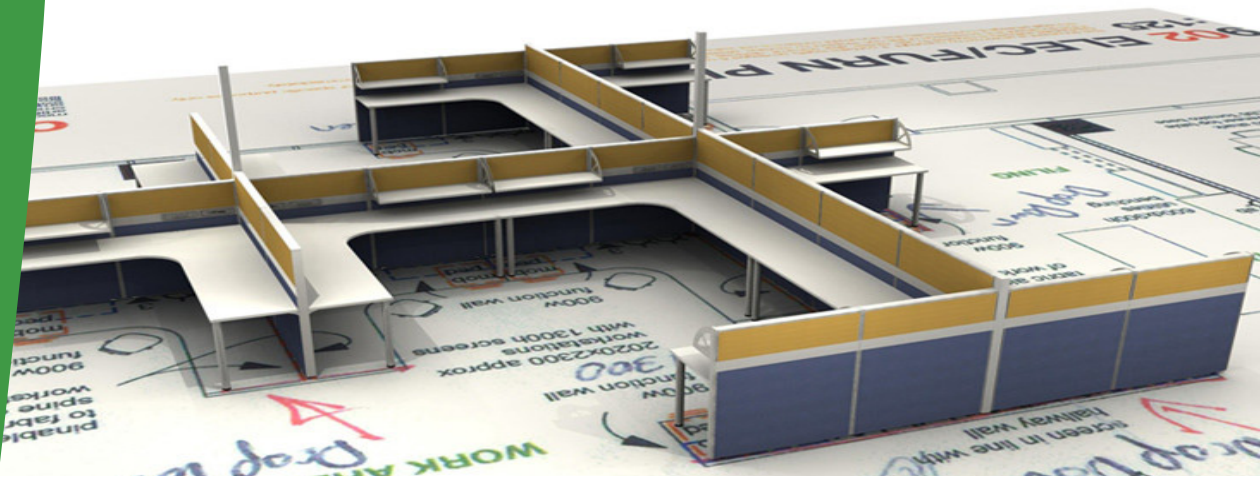

Divergence GROUP

Our beginning

Established in 2003, Divergence Group now includes specialised Commercial Fit-Out Project Management Services, providing complete end to end project solutions in both the public and private sectors.

Utilising our established and proven project management processes, and combining this with our teams extensive experience in commercial fit-out project management, Divergence Group has established itself as an industry leading project management firm.

Complete Commercial Fit-Out Project Management Solutions

Our Philosophy

Divergence Group's experience has defined our philosophy to provide an unbiased and professional service, ensuring maximum service delivery and quality for our clients.

We form long term relationships with our clients by gaining a deeper understanding of their vision and expectations for each project.

Divergence Group's Client Satisfaction Is our Pride

Why Choose Us

Our Senior Management Team has a combined 50+ years experience in project management in both the public and private sectors, our organisation utilises cutting edge technologies and tools to effectively and efficiently manage our clients requirements.

Our experience allows us to take on small or large projects and provide a more efficient and cost effective project management service, in parallel or superior to any multinational organisation.

Our Offering

With our experienced team, Divergence Group excels in delivering projects on time and within budget by utilising a tailored project road map, the latest management technologies and Divergence Group's proven application of design and management procedures and methodologies.

Our client focus is evident in our established client base, and diverse range of completed projects.

Our Senior Team

Ross Circosta
Managing Director

With over 15 years experience in Project Management across multiple sectors and industries, Ross provides innovative and integrated approaches to Projects

Franco Domenici
Senior Project Manager

Franco has over 35 years experience in the design, building and construction industries. Franco brings a wealth of knowledge and practical experience to our team.

Our wealth of knowledge and expertise is backed by our credibility and reputation within the industry

We utilise the latest collaboration technologies

Concept - Scope Development

Liaising with our clients, we develop initial project concepts including preliminary sketches, budgets and programs, through to complete feasibility studies and business cases. Our experience enables us to value add to this critical phase of the project

Project Governance

We identify stakeholders, accountabilities and responsibilities, utilising this information to strategise, develop and implement an effective management framework within which project decisions are made.

*Divergence Group's
Project Management Team is committed to
successful project delivery*

Risk Assessments

Our team is adept at identifying project risks, defining adequate control measures, documenting and implementing risk mitigation strategies.

Design Management

Our experienced team, utilising our proven design management procedures and methodologies, can manage the project design from Concept through to Construction. We have an extensive network of consultants and engineers to facilitate every part of the design process.

Budgeting/Programming

As two integral parts of a project, our team will complete and continuously monitor both the project budget and program. We utilise the latest tools and technology to formulate, implement and manage budgets and programs.

Procurement

We can define and implement innovative procurement strategies ensuring maximum project investment efficiencies, and probity.

Tendering

With extensive experience in both the Public and Private Sectors, we can manage the complete tender process, or work with our clients existing tendering procedures, ensuring complete transparency and probity in the tender process.

Contracts Administration

From AS4000 to GC21, our team has experience in implementing, executing and managing contracts, ensuring our clients best interests are maintained, in a fair and reasonable project environment.

Construction Management

From the preliminaries through to completion, our project team will be responsible for the overall planning, coordinating and control of all project level activities ensuring a financially viable project is completed.

Our focus is on delivering on or ahead of program and within budget by simple communications and continuous project monitoring.

Relocation Management

Divergence Group understands that the completion of the fit-out is only one aspect of a complete project solution. Our team has extensive experience in relocation management.

*Divergence Group specialises
in managing commercial fit-outs in Occupied
Environments.*

Project Completion

Our Project Team will conduct a thorough defects inspection, reconcile all project financials, and ensure a complete project handover for our clients at project completion. Most importantly Divergence Group is always available to our clients post project completion.

Post Completion Period

Divergence Groups's Project Managers can facilitate and manage post completion services and/or maintenance contract.

*Our Project team thrives on solving complex project issues and
our clients satisfaction upon successful project completion*
